Bachelor's of Science in Elementary Education

Master's in Elementary Education

Master's in Arts in School Administration

Mission & Purpose

Strobel Education collaborates with schools, districts, and organizations to **elevate teaching, learning, and leadership** by providing:

- **On-site (and virtual) professional development** designed to be high-impact and immediately actionable. We deliver customized, energizing sessions on topics like culture & climate, data-driven instruction, trauma-informed practices, growth mindset, SEL, and instructional strategies to meet your staff where they are.
- **Strategic consulting and coaching support** that is school-embedded and tailored. Our consultants partner with leadership and educator teams through ongoing coaching cycles, data analysis, program evaluation, and facilitation to help turn strategies into sustainable growth. Together, these offerings aim to support educator efficacy, improve instructional outcomes, enhance school climate, and promote equitable success for all students.

Inner Vision Value Proposition

Delivers a wide range of services, including in-person programming and interactive virtual learning through live webinars, LMS platforms, and on-demand content. Topics include mental wellness, stress management, data-driven instructional practices, building positive cultures, embracing a growth mindset, trauma-informed practices, social-emotional learning, and more.

Equips schools and youth-serving organizations with both in-person and digital tools designed to strengthen student performance and achievement, enhance family engagement, boost educator morale, and cultivate a positive school culture.

Offers inspiring, skills-based presentations—delivered both live and online—for colleges and universities, focusing on personal growth, resilience, and lifelong success.

Core Competencies & Offerings

Service Areas	Description	Outcomes
Professional Development & Training	On-site, virtual, and online courses in school culture, trauma-informed practices, Science of Reading, SEL, Growth Mindset, Standards-Based Grading, and more.	Educator engagement, improved instructional practice, measurable student outcomes
Consulting & Coaching	Customized coaching cycles, strategic planning facilitation, leadership retreats, and job-embedded support	Sustainable culture shifts, stronger leadership capacity, and aligned school improvement plans
Digital Learning & SaaS Integration	Partnerships to design, implement, and support SaaS educational analytics platforms (including FedRAMP-authorized solutions)	Cloud-based, scalable platforms for monitoring progress and supporting FACE program sites
Data Collection, Evaluation & Program Analysis	Needs assessments, program evaluation, performance dashboards, compliance-driven reporting	Evidence-based decision-making, transparency, accountability
Technical Assistance & Program Support	Stakeholder training, technical onboarding, and resource development	Seamless adoption of new systems and sustained user confidence

Strobel Education is uniquely positioned to support this initiative. Our team blends **decades of K-12 expertise** with proven experience in **program evaluation, large-scale professional learning, and data-driven coaching**. We also partner with trusted SaaS providers to ensure secure, compliant, and scalable cloud solutions.

We understand the importance of **federal compliance standards** and can deliver both the **human element** (training, coaching, cultural alignment) and the **technical element** (data, analytics, reporting) that FACE program sites need for long-term success.

Differentiators

- **Educator-centered experts** with firsthand classroom and leadership experience
- **Immediate implementability** of strategies with ready-to-use tools and resources
- **SaaS and analytics partnerships** ensuring compliance and scalability
- **Sustained support model:** coaching, helpdesk, reporting, evaluation cycles
- **Proven national reach:** partnerships with districts, DOE agencies, higher education, and nonprofits
