

*“A photograph is shaped more by the person behind the camera than by what’s in front of it.”*

**Directions:** Choose one word to focus on for your positive perspective of yourself. Then, you are either going to draw a portrait of yourself or you are going to take a selfie. Your picture should try to illustrate the positive perspective of yourself. Think about the objects you have in the background, the colors you are wearing, your facial expression, the lighting, and your body language. Finally, write a brief paragraph explaining your thought-process in creating the photograph.

One word to describe a positive perspective of yourself:	
--	--

Put photo selfie or art portrait here:
--

Write a paragraph explaining how you showed a positive perspective of yourself in the portrait?
