Presenter

Kim Strobel

Kim isn't just the owner of Strobel Education. She's its driving force. Her wisdom, positivity, and strength inform every aspect—and it shows in the inspiring workshops she presents to teachers who seek to make a difference. She puts herself “in the trenches” with teachers because she was once there herself and knows how important support and encouragement are in creating a successful classroom. Kim has been a fourth grade teacher, a K-12 literacy coordinator, and a director of curriculum; and she's now a consultant, a speaker, a happiness coach, and an aspiring author.

What People are Saying About Kim

“Absolutely awesome! Unlike other workshops, Strobel Education makes the material easy to understand and implement quickly into your instruction. Kim is a wonderful person and an awesome presenter.”

—Dana Campbell, 4th Grade Teacher, Sharon Elementary School

“Kim Strobel is a dedicated educator who understands what teachers need. Her magnetic personality and genuine presentation style captivate audiences everywhere she goes. Her enthusiasm is contagious. You'll love her!”

—James M. Halik, Ph.D., Former Superintendent, Compass-Keynote Consulting, LLC

“The buzz sweeping the education world about Kim Strobel is real. And, it's no surprise that teachers and administrators are lining up to see her presentations. Simply put, she's absolutely fantastic. Not only is she a thought leader and expert in her field, but more than that, she's deeply passionate about helping teachers make a lifelong difference in the lives of students.”

— Hal Bowman, Founder/Creator, Teach Like a Rockstar

An Invitation from Kim

According to mindset psychology researcher Carol Dweck, “A growth mindset is the understanding that we can develop our abilities and intelligence.” Research has shown that our implicit beliefs about our intelligence can have a great impact on our achievement.

As I’ve observed and helped implement growth mindset projects and curriculums in schools across the state, **I’ve seen students’ attitudes improve and the overall culture of the classroom and school expand toward a more positive and productive climate.**

We want our students to learn the value of productive struggle and to feel safe taking risks in the effort of learning something new. We all want our children to have confidence and feel like they can have a positive impact on their school and their community. We want them to believe they have the power to make our world a better place. And every single teacher wants high achievement levels for their students.

As I’ve worked with teachers, I’ve seen classroom climates infused with a sense of purpose and contribution. I’ve seen children’s self-esteem being cultivated, and learning that demonstrates that growth comes from productive struggle.

I’ve seen entire classrooms and schools adopt this growth mindset practice, and it has literally transformed the school culture into one that promotes positivity, happiness, and the value of growing.

We know from the research that students (and teachers) with a growth mindset learn, thrive, and achieve more than those who have fixed mindsets.

During this online course, I will give you the tools to implement a growth mindset curriculum that is super-easy, but offers big benefits for your classroom community. **You’ll also receive exclusive access to “Tribe Tools,” digital resources and ready-to-go lessons that will help you develop gritty, determined, self-reliant students who know that if they work hard enough they can and will accomplish great things.**

Course Overview

Develop Gritty, Determined, Self-reliant Students

This online course will help teachers implement a growth mindset curriculum, which has been proven to lead to greater motivation levels and higher achievement for students, in their classrooms. You'll learn strategies to increase your own growth mindset as an educator, as well as how to develop and integrate the growth mindset philosophy in the classroom. The course is broken into convenient modules that can be viewed all at once, or broken out and viewed over time to best work with your schedule.

Continuing Education Credit/PGP

Participants may receive credit for 5 hours of professional development for each completed online course. After online evaluations have been completed, attendees will receive a certificate of completion which can be used to verify attendance.

ONLINE COURSE FAQ

How does the online course work?

After enrollment, your online course will be available for immediate access. The course is broken into convenient modules that can be viewed all at once, or broken out and viewed over time to best work with your schedule.

How long is the online course available to me?

After completion of an **individual** enrollment for the online course, you'll have access to the content for 30 days. This lets you set the pace of how you want to learn!

Can I earn continuing education/PD credits?

Yes, with prior approval from your school district! Participants may receive up to 5 hours of professional development credits for each completed online course. A Certificate of Completion is provided.

Can I share my course with colleagues?

Sorry, course sharing is not allowed. Access is allowed only for one person per registration fee. However, we do offer group discounts. [Contact us](#) for details.

Is the online course most effective when used by an individual teacher, or as a group?

Both options are equally effective! For the individual teacher, the online course offers flexibility to access valuable professional development content on their own time from anywhere with an internet connection.

Administrators may choose to have their staff use this online course as a group during in-service or early release days. Again, the course offers great flexibility and can be viewed all at once or over time.

I wasn't completely satisfied with the online course. Now what?

We believe teachers should always love their PD! So if the online course doesn't meet your expectations, simply contact us within 10 days of purchase for a full refund.
