

Comparing a Positive & Negative Perspective

Your name:

Directions: First, identify an image that you want to use to compare using a positive and negative perspective. Examples include: desert, home, spiders, loneliness, mountains, family, rain, boredom, or school. Or, you can choose your own image!

Second, create a list of how you would understand that object from a positive perspective and how you would understand that object from a negative perspective. Or, find an image or draw a picture of the object using a positive or negative perspective.

Modeled Example:

Image: Weeds

Positive Perspective	Negative Perspective
 <ul style="list-style-type: none"> ● Colorful ● Vibrant ● Strong ● Free ● Tall 	 <ul style="list-style-type: none"> ● Thorny ● Ugly ● Bothersome ● Painful ● Needy
